

Maryland's STEM Innovation Network

Completion Date: August 2014

Client: The Maryland Business Roundtable (MBRT)

No.Inc partnered with the Maryland Business Roundtable to redesign its STEMnet website that connects teachers in the classroom with professionals in the fields of science, technology, engineering, and mathematics. Serving as a meeting place for educators and professionals, STEMnet users schedule experienced professionals into classes with students so they can see firsthand the connection between classroom subjects and real world STEM careers. Redesigning the site and workflows provided easier access to resources, reports, and professional connections. On the administrative side, we created several reporting tools that facilitate monitoring activities and status of speakers in classrooms.

The Challenges

- Support multiple program types and workflows within the same onboarding and reporting framework
- Optimize an older Drupal theme
- Add and change features of an active system

Our Approach

- Establish clear goals
- Focus on key interfaces for improvements
- Optimize code and UI wherever possible

The Results

- Improved speed and performance
- Better user tracking and reporting
- Site enhancements

Create An Account

VOLUNTEER ACCOUNT

I want to volunteer with the Maryland Business Roundtable for Education.

[Create Volunteer Account](#)

EDUCATOR ACCOUNT

I want to invite a Maryland Business Roundtable for Education volunteer into my classroom/school.

[Create Educator Account](#)

We are looking for volunteers from business, industry, higher education, and governmental agencies to engage students in learning experiences that foster academic growth and promote student success. Create an account and participate in one training session to work with Maryland's students and teachers.

Create an account to gain access to Maryland Business Roundtable for Education's trained volunteers. Volunteers are available to Maryland Public School educators. There is no cost to create an account or invite volunteers to your classroom/school.
